You won't pay more than \$105 for up to a three-month supply of each covered insulin product regardless of the cost-sharing tier.

Cost sharing may change depending on the pharmacy you choose and when you enter another phase of the Part D benefit. For more information on the additional pharmacy-specific cost sharing and the phases of the benefit, please call us or access our *Evidence of Coverage* online at [www.bcbsm.com/medicare](http://www.bcbsm.com/medicare).

### Phase 3 & 4: The Coverage Gap & The Catastrophic Stages

You have coverage for some Tier 1 generics during the coverage gap stage. During this stage, you will pay either \$0 at a Preferred pharmacy or \$5 at a Standard pharmacy for a 31-day supply of these medications. You won't pay more than \$35 for a 31-day supply for each covered insulin product regardless of the cost-sharing tier. You also have coverage for generic and brand-name drugs in the Catastrophic Coverage stage. During this stage, you will pay \$0 for the cost of the drug. Most members do not reach the Coverage Gap stage or the Catastrophic Coverage stage. For detailed information about your costs in these stages, look at Chapter 6, Sections 6 and 7, in the *Evidence of Coverage* online at [www.bcbsm.com/medicare](http://www.bcbsm.com/medicare).

*Your plan requires prior authorization and has step therapy and quantity limit restrictions for certain drugs. Please refer to your formulary to determine if your drugs are subject to any limitations.*

You must generally use network pharmacies to fill your prescriptions for covered Part D drugs. Some of our network pharmacies have preferred cost-sharing. You may pay less if you use these pharmacies. You can see our plan's pharmacy directory at our website ([www.bcbsm.com/pharmaciesmedicare](http://www.bcbsm.com/pharmaciesmedicare)).

You can see the most complete and current information about which drugs are covered on our website ([www.bcbsm.com/formularymedicare](http://www.bcbsm.com/formularymedicare)).
