

Evolent (formally National Imaging Associates, Inc.) Medical Specialty Solutions Quick Reference Guide for ordering and rendering providers

Effective: May 1, 2022

Blue Cross Complete has entered into an agreement with National Imaging Associates Inc., a subsidiary of Magellan Health, to manage a suite of Medical Specialty Solutions. The program is consistent with industrywide efforts to both ensure clinically appropriate care and manage increasing utilization of these services.

Effective May 1, 2022, the program will require prior authorization from NIA for the following non-emergency outpatient diagnostic imaging services:

- CT/CTA
- CCTA
- MRI/MRA
- PET scan
- Myocardial perfusion imaging
- MUGA scan

For a list of the CPT-4[®] codes that NIA authorizes on behalf of Blue Cross Complete, refer to NIA's website, RadMD.com* to obtain the Blue Cross Complete/NIA Billable CPT Codes Claim Resolution/Utilization Review Matrix.

Medical Specialty Solutions services performed in the following settings **don't** require authorization through NIA:

- Inpatient
- Observation
- Emergency room or urgent care facility

Urgent and emergency care

If an urgent or emergency clinical situation exists outside of a hospital emergency room, contact NIA immediately with the appropriate clinical information for an expedited review. **NIA's website RadMD.com* can't be used for urgent or emergency clinical situations during normal business hours.** For prior authorization of urgent or emergency care during normal business hours, call NIA at **1-800-424-5351**.

Obtaining authorizations

The ordering provider is responsible for obtaining prior authorizations for the Medical Specialty Solutions services listed above.

The provider rendering services is responsible for:

- Ensuring an authorization was obtained. Payment will be denied for procedures performed without a necessary authorization. **The member can't be balance billed for these procedures**
- Communicating to all personnel involved in outpatient scheduling that prior authorization is required for the above procedures under Blue Cross Complete
- Requesting the authorization number (if a provider office calls to schedule a member for a procedure requiring prior authorization)
- If the referring provider hasn't obtained prior authorization when required, advising the provider to obtain an authorization

If a member calls to schedule an appointment for a procedure that requires authorization and doesn't have the authorization number, the member should be directed back to the referring provider who ordered the procedure.

- **An authorization number isn't a guarantee of payment.** Whether the requested service is covered is subject to all of the terms and conditions of the member's benefit plan, including, but not limited to, member eligibility, benefit coverage at the time of the services are provided and any preexisting condition exclusions referenced in the member's benefit plan.
