How we support your health

The health care system is complex. But you have support. Health Guide is here to help you navigate all the moving parts of your health care needs. Call, email or chat online with Health Guide to:

- Get answers about benefits, claims and billing questions
- Choose in-network doctors and specialists and schedule appointments
- Connect to nurses or clinical staff for answers to health questions
- Hear recommendations about preventive care
- Receive alerts for clinical programs you may be eligible for
- Learn about gaps in your care

Contact Health Guide at **1-866-507-2850** 8 a.m. to 8 p.m. Eastern time Monday through Friday. TTY users, call **711**. You can also find the number on the back of your Blue Cross member ID card.

In-Home Visits with Signify Health

We work with Signify Health to offer an In-Home Visit program to our new members, at no additional cost. This is not an annual benefit, but is only available once to new members. You can have a complete health and wellness assessment with a licensed medical professional, all in the privacy of your home. You choose the day and time.

The In-Home Visit can be done in one of three ways:

1. In person in your home
2. Through video conference — on your smart phone, tablet or computer
3. Over the telephone

Once the visit is complete, you'll get a written summary; we'll send a copy to your doctor, too.

For more information, or to schedule an In-Home Visit, call Signify Health at **1-844-226-8216** from 8 a.m. to 8 p.m. Eastern time Monday through Friday. TTY users, call **711**. You can also visit bcbsm.com/uawtrust/resources/home-visits/.

Signify Health is an independent corporation retained by Blue Cross Blue Shield of Michigan to provide health and well-being services to select Enhanced Care PPO members.

Take an active role in your care

You're a key player on your health care team. Get more out of your doctor visits by:

- Writing down questions and symptoms you want to discuss with your doctor.
- Taking notes as the doctor answers your questions.
- Reviewing your medications (dose, side effects and any over-the-counter supplements you are taking).
- Speaking up if you have any health concerns.
- Being involved in your care decisions.

Know where to go for care

You have smart choices for when and where to get health care. Know your options so you can get the treatment you need, right when you need it. It's important to think about what kind of care best fits your needs.

Primary care provider

Call your doctor first when you're not feeling well. They know you best and understand your health history.

24-Hour Nurse Line

There is no cost when you call **1-855-624-5214**. TTY users, call **711**. This is a good option when you have questions about an illness or injury.

Virtual care visits

Virtual care is available through Teladoc Health®, an independent company. It's as simple as using your smartphone, tablet or computer anywhere in the U.S. to meet with:

- A provider for minor illnesses such as a cold, flu or sore throat when your primary care provider isn't available
- A behavioral health professional or psychiatrist to help work through different challenges such as anxiety or grief

Visit bcbsm.com/virtualcare or call **1-800-835-2362**, 24 hours a day, seven days a week, 365 days a year. TTY users, call **1-855-636-1578**. Behavioral health services are available by appointment from 7 a.m. to 9 p.m. Eastern time, seven days a week.

Retail health clinics

Get quick, in-person evaluation and treatment for minor illnesses and injuries on a walk-in basis at select drug store chains. Copay may apply. Service covered in-network only.

Urgent care

Get non-emergency, in-person care conveniently, after hours or on weekends for conditions such as:

- Mild allergy symptoms
- Colds and flu
- Earache
- Skin rash
- Painful urination
- Sore throat and cough
- Low-grade fever
- Eye irritation or redness
- Minor burns, cuts and scrapes
- Sprains and strains

Copay applies. Service covered in-network only.

Emergency room

Visit for serious or life-threatening illnesses or injuries. Copay may apply. Copay waived if admitted.

Talk to your doctor

Topic	Speak Up	Good to know	Ask your doctor	Get specific
Physical and mental health	Talk to your doctor about concerning physical or mental limitations.	If you physically or mentally don't feel at your best, there are ways to manage it.	Should you change your daily activities or add new ones?	What type of support programs are right for your overall well-being?
Cardiovascular screenings	Get your blood pressure checked during each health care visit.	Talk to your doctor about your weight, waist circumference and your body mass index.	Request any cholesterol screenings you may need.	Discuss smoking, physical activity and your diet.
Fall prevention	If you've fallen, make sure to call your doctor. Don't wait until your next appointment.	There may be simple solutions, such as a medication dosage change.	Could you benefit from a cane, walker or physical therapy?	Discuss any balance or walking problems.

Finding care

To see if your doctors are in our network, visit us online at bcbsm.com/uawtrust.

1. Click *Find a Plan*.
2. Select your state.
3. Under *Select your plan type*, click *non-Medicare plans*.
4. Click on *View plan* under your plan.
5. Scroll down to the *Find a Doctor* box and follow the prompts.

You can choose a doctor by name or specialty or choose a hospital or clinic by name or type.

If you have trouble locating your provider, if your doctor's name doesn't appear or if you have any questions, please call **1-866-507-2850** for help. TTY users, call **711**.

Make sure you're up to date on screenings

Ask your doctor if you need to schedule any of these regular services.

Preventive screenings			
Breast cancer screening	Colorectal cancer screening	Bone density screening for osteoporosis	Cholesterol
Annually	1 to 10 years depending on test	Every 2 years	Annually

Vaccines			
Flu shot	Pneumonia vaccine	Shingles	COVID-19
Annually	The number of shots per lifetime will depend on vaccine used and time between doses	2 doses*	Talk to your doctor

Diabetic services (if applicable)			
A1c test	Diabetic retinal eye exam	Urine protein screening	Fasting plasma glucose test
2 to 4 times a year	Annually	Annually	Annually

Easy ways to get your flu and pneumonia vaccines

There are several places to get vaccines:

- Local pharmacy
- Doctor's office

Good to know: The Centers for Disease Control and Prevention recommend getting your flu vaccine in October before the flu season begins because it takes about two weeks after vaccination for the antibodies that protect against the flu to develop in the body. Getting vaccinated later can still be beneficial and vaccinations are offered throughout flu season.

A closer look at prior authorizations

Before getting certain treatments, your doctor will request prior authorization from our plan on your behalf. This helps ensure that the recommended treatment is safe, appropriate for your condition and follows guidelines based on the latest medical research.

How can you help the process?

- **Collaborate** with your doctor during your care. Be sure to tell your doctor about all earlier treatment because prior authorization requests require the provider to list other treatment you've had.
- **Ask your doctor** if the treatment requires prior authorization or call us before you get treatment. Services that need prior authorization are noted in the medical benefits chart included with your *Evidence of Coverage* booklet available online at bcbsm.com/uawtrust.

Here's how the process works:

First, a doctor sends a written request to Blue Care Network detailing the diagnosis and recommended treatment. Then, we review the request and either:

- **Approve the request**, which means your plan will cover the treatment. Your out-of-pocket cost is determined by your plan benefits.
- **Approve the request on a trial basis**. We will cover part of the initial treatment to see if it produces the desired outcome. Additional medically necessary treatment may be covered once it is established that the initial treatment is producing positive results. Your out-of-pocket cost is determined by your plan benefits.
- **Ask for more information** from your doctor to document medical necessity.
- **Deny the request**, which means your plan won't cover the treatment. We'll explain the reason for the denial to the provider, and mail you a denial letter that explains your options, including how to appeal the denial. If a doctor provides a service requiring approval without a prior authorization, he or she is usually responsible for the cost. If your provider has told you a service wasn't approved, your provider may ask you to pay the full cost.

Frequently asked questions

Why is it important to have a routine physical?

During a routine physical, a primary care provider collects health information through an exam and assesses your current health and risk factors.

Services include:

- A physical examination, including vital signs and measurements
- Guidance, counseling and risk factor interventions
- Recommendations for immunizations, lab tests or diagnostic procedures

If your routine physical is done by your primary care doctor, there is no copayment or deductible for this preventive service. If a specialist performs your physical, a specialist copay will apply. Additionally, if your doctor provides services outside the scope of the set parameters, a copayment or deductible may apply.

Will I be billed for my colonoscopy?

A colonoscopy screening checks to see that you're healthy (no sign, symptom or disease present).

There is no copayment or deductible for a colorectal cancer screening exam. If your doctor finds and removes a polyp or other tissue during the colonoscopy or flexible sigmoidoscopy, the screening exam becomes a diagnostic exam, however, you won't be charged additional out-of-pocket costs.

If you receive other services or if additional conditions are discussed during the visit, your copay may apply.

Why am I being charged an emergency room copay? I thought the copay was waived if I spent the night in the hospital.

- If you go to the emergency room and are admitted to the hospital as an inpatient, your ER copay is waived.
- If you go to the emergency room and are held in observation as an outpatient but not admitted, your ER copay is not waived.

Will I be paying inpatient or outpatient out-of-pocket costs?

If you're having a service in a hospital, you should ask your provider beforehand to see if the service is inpatient or outpatient, as this will affect your out-of-pocket cost. Unless the provider writes an order to admit you as an inpatient to the hospital and your plan authorizes admission, the service will be outpatient and you will pay the cost-sharing amounts for outpatient services. Even if you stay in the hospital overnight, the service might still be considered outpatient. If you're not sure the service is considered outpatient, call Customer Service at **1-800-222-5992**. TTY users, call **711**.

Do you have any money-saving tips?

The cost of your services may be different based on where they're performed (in office or outpatient in a surgery center). For example, you can save money by using an urgent care or retail health clinic for treatment of minor illnesses instead of the emergency room.

Manage your costs with confidence

Your online member account will help you make informed, confident decisions about your health care costs and more.

Keep track of your deductible and out-of-pocket maximum

Your deductible is how much you'll pay for care before we start to pay. Your out-of-pocket max is the most you'll pay before we cover the cost completely. You can see how close you are to meeting both.

Review your claims and explanation of benefits

Claims and explanation of benefits statements show how much a provider charged for services, and what portion we've paid. They also tell you what services you've already paid for, and if your payment amount is correct.

Know your copays before you visit a provider

Easily access copayment information for commonly used services, including office visits and urgent care.
