What is durable medical equipment and how do I get it?

Sometimes, when you're recovering from an operation or illness, your doctor may order special equipment, such as a wheelchair or an oxygen tank. These types of items are called **durable medical equipment**.

Your doctor will write a prescription for the equipment you need.* Our equipment vendor, Northwood Inc., will fill the prescriptions.

To locate Northwood providers near you, call **1-800-667-8496** from 8:30 a.m. to 5 p.m. Monday through Friday.

What are diabetic supplies, and how do I get them?

Diabetic supplies, used to manage your condition, include insulin pumps, glucose monitors, lancets and test strips. Your doctor will write a prescription for the basic supplies you need.*

Except for diabetic shoes and inserts, the prescriptions are filled by J&B Medical Supply. Diabetic shoes and inserts are supplied by Northwood.

To locate J&B Medical Supply providers near you, call **1-888-896-6233** from 8 a.m. to 6 p.m. Monday through Friday.

**Your prescribing doctor may be your primary care provider or a BCN-participating specialist who's treating your condition.*

Northwood is an independent company that provides durable medical equipment for Blue Care Network of Michigan.

J&B Medical Supply Company is an independent company that provides diabetic materials for Blue Care Network of Michigan.

continued on other side

Prior authorization required

Prior authorization is special approval from us for certain health care services. Durable medical equipment and diabetic supplies both require prior authorization before they're covered.

Are there limitations or exclusions for equipment or supplies?

Members with BCN prescription drug benefits may have pharmacy coverage for some glucose monitoring products and supplies. Check your drug list for what's covered. As a pharmacy benefit, these products and supplies can be obtained through a BCN pharmacy as well as through J&B Medical Supply.

For durable medical equipment or diabetes supplies, we only cover the rental or purchase of basic items you use at home. To get deluxe items or items that don't meet our criteria for medical necessity, you pay the difference between the Northwood or J&B Medical Supply price and the amount we pay for the basic item.

Do I pay anything for durable medical equipment and diabetic supplies?

You may have out-of-pocket costs, such as a deductible, copayment or coinsurance, for either the pharmacy or medical benefit. Members with BCN prescription drug benefits may have different out-of-pocket costs when obtaining certain diabetic supplies at a pharmacy versus through J&B Medical Supply. Check your benefit documents for details or call the Customer Service number on the back of your BCN member ID card. TTY users, call 711.

To see your benefit documents, log in to your account at bcbsm.com. Click *My Coverage* in the navigation menu, select *Medical* from the drop-down menu and then click *Plan Documents*.
