Price Edge

Save with instant discounts on some generic medications

Shopping around for the lowest price for your medication can be challenging and time-consuming. Fortunately, you now have a discount program included with your prescription drug plan. This program will do all the hard work for you.

Paying less for your prescriptions just got easier

Price Edge will save you money on nonspecialty, generic medications, even if they're not covered by your benefits.

Fill your prescriptions as usual and use your current network pharmacy. You'll receive these services at no additional cost.

- **Finding discounts:** Price Edge searches for prices offered by drug discount cards.
- **Reviewing your benefits:** Prices for eligible medications are automatically compared to your prescription drug benefits.
- **Applying the lowest price:** You'll pay the lowest price available for eligible drugs, including nonspecialty, generic medications that your prescription drug benefits don't cover.

Convenient discounts and comprehensive support

Price Edge will help you manage your health — and your budget.

- **Featuring digital and mobile tools** you can use to check prices and improve your knowledge of costs for certain generic drugs
- **Applying the cost of your covered medications** to your out-of-pocket maximum and deductible balances, if applicable
- **Retaining your medical history** to make sure our clinical programs and drug safety checks continue to protect your health

To check the price of a medication, log in to your secure member account at bcbsm.com or on our mobile app:

- Click on *My coverage*.
- Click on *Prescription*.
- Click on *Find & price medications*. Select *Find pricing and coverage* on the mobile app.
- In the *Search* section, enter the name of the medication.

The price of your medication may vary as medications are added to or removed from the program.

If your medication is covered, you'll receive the following alert: "Your price has been discounted with Price Edge for a competitive low market price."

If your medication isn't covered, you'll receive the following alert: "This drug is not covered by your plan, but we've discounted the price with Price Edge. The cost for this noncovered medication will not apply to your deductible or out-of-pocket maximum."
